

LA BELLE SIDE TRACK

Across McColloch Street and Alley
G to Their Coal Mines.

COUNCIL COMMITTEE ON RAILROADS

Goes Over the Ground and Recommends that Permission be Given for the Laying of the Track—It Was Refused by the Last Council—Probably Will Pass This Time.

In compliance with the call issued by Chairman Allan Brock, the City Council committee on railroads met yesterday afternoon at the La Belle iron works, on the South Side, to investigate the application of that concern for permission to build a switch across McColloch street and Alley G.

Five members of the committee, Messrs. Brock, Frew, Zulauf, Caldwell and Richards, were on the scene promptly, and Mr. Grimm came along a few minutes later. The only absentee was Messrs. Hamilton and Moukemiller.

In charge of the president of the La Belle, Mr. Cecil A. Robinson, the committee went over the ground thoroughly. At present the La Belle people have an entry into their coal bank in the hill back of the mills, under McColloch street and Alley G. This is a serious disadvantage to them, as the loaded coal cars coming out of the mine have to be elevated some seven or eight feet after reaching the mill, a source of much expense. To do away with this, Mr. Robinson wants an ordinance passed giving them right of way across the street and alley before mentioned. When this should be given the company will construct another shaft into their coal bank on a level with McColloch street, diagonally opposite the alley connecting McColloch street and Alley G, which is owned by the LaBelle, and is not a public alley as has been supposed and stated by some people. The new shaft would connect with the old mine; the shaft under the street would be used for ingoing cars, and the new one for loaded outgoing cars. The lot on the east side of McColloch street on which the new shaft would start is owned by the LaBelle, so it is seen that the only public property which the new tramway would strike is alley G and McColloch street, the remaining distance between the mills and entry to shaft being along the company's private alley.

Plats and deeds illustrating the matter were exhibited, and an ordinance similar to the one presented to the last Council with one or two changes, was prepared. It provides that only horse power shall be used, that the track shall be at grade, and that the company shall indemnify the city for all accidents caused by the track.

After the situation had been gone over, Mr. Frew moved that Council be recommended to pass the ordinance. Mr. Zulauf seconded the motion. It passed unanimously. The committee then adjourned.

This project was up two or three times before the last City Council, but was always knocked out. The McCulloch street residents fighting it desperately. As such privileges have been accorded to other manufacturers, the La Belle people think they should be granted similar concessions. The unanimous recommendation of the railroads committee to Council will probably have considerable weight.

All Sorts of Local News and Gossip from the Glass City.

Marshal Johnson arrested a one-legged man late Thursday night and locked him up. On his person was found \$102, and when the fellow came out for a hearing yesterday morning his eyes were wet with tears of joy at sight of the money in the mayor's hands. He thought he had lost it and probably would have been taken in charge. The fellow was unusually grateful to the officer for taking charge of him, as he said the night before was a blank to him.

The Scotch preserving company held a meeting yesterday afternoon and organized by electing the following board of directors: H. Roemer, A. O. Mellott, W. J. Morrison, Joseph Clements, James McGregor. The board organized by electing A. O. Mellott, president; H. Roemer, vice president; J. C. Shinko, manager, and W. J. Morrison, treasurer. The latter will also act as secretary until a permanent secretary is needed. The company will pay in 50 per cent of the capital stock at once and begin business right away.

It has just been learned that the death of Cyrus S. Trux, whose body was brought here this week from Kansas, was caused by being snatched in St. Joseph, Mo., while on his way to Kansas. He was knocked senseless and robbed of \$160 and his watch, but he went on to Norcutt, and just after arriving there took to his bed and died the next day, this day week ago. Nothing is known of his assailants.

The next meeting of the Belmont County Teachers' Association will be held in Powhatan. A late law passed is of general interest to teachers, in that it constitutes the state school commissioner and state board of examiners a state board of education, and provides for a uniform examination of teachers by the state board furnishing lists to the local boards.

The Railway Age says that among the railroads to be built this year the Toledo, Walhonding Valley & Ohio, leading from Coshocton southeast to Powhatan, a distance of seventy miles, is a possibility; and the P., O. V. & C., from Powhatan to Marietta, a distance of sixty miles, is probability.

NOT CONSUMPTION.

The Symptoms in Miss Wheeler's Case Had Been Misunderstood and She Had Been Long Improperly Treated.

After Twenty-two Years of Suffering from Catarrhal Drain, Headache, Dizziness, Palpitation, Cough, Chest Pains, Dyspepsia, is Entirely Restored by Drs. Copeland, Bell and Davis.

Miss Ella Wheeler, No. 198 Seventeenth street, a "Philadelphia" dressmaker, furnished the following remarkable statement for publication in endorsement of Drs. Copeland, Bell & Davis' method of treatment:

"My trouble began twenty-two years ago," says Miss Wheeler, "with cough, cold, sneezing and feverish spells. I have taken a thorough treatment from fifteen of our city physicians and have swallowed a barrel of cod liver oil in the rounds of them all without benefit. 'Some of the doctors told me my trouble was hereditary and I would never get well of it, while others told me I might grow out of it, but everything I took did me no good. One doctor told me I had consumption and would never get well. Finally I read, in one of the papers of a lady who had precisely the same symptoms as I had and I felt if she could get cured I could also. So I made up my mind to go and consult Drs. Copeland, Bell and Davis and the first visit made to their office I was so near cured and so very weak I had to stop at different places on my way to rest. I at once placed myself under their care. At that time my nose would stop up

and mucus constantly dropping into my throat, causing me to cough. I had headaches, pain over my eyes, coughed almost night and day, raising a thick, tenacious mucus streaked with blood. My throat was so sore I could scarcely swallow. I was so short of breath when I would go upstairs I would have to sit down on the top step to rest. Pains all through my chest into my back so bad I would have to be propped up with pillows in order to keep from another morning to death—pains just like a knife running through my chest. Appetite lost, what little I did eat crampied and burned in my stomach and caused much misery. I was almost afraid to eat. Almost anything I ate I would throw up. It would not lay on my stomach.

"I also had pains through my back and kidneys, so severe at times could walk. He is a boy, two years ago night sweats set in, and every stitch of clothing about me was just as wet as though they had been dipped in the river. I had chills every day, followed by burning fever and aching all over. My feet would swell so tight I could not wear my shoes. I had palpitation of the heart, and grew so weak and thin I was nothing but skin and bones. I was a mere skeleton. People would come in and tell my sister I would not live a week and I often prayed that I might die to get out of my misery. I also had dizziness in my head so bad I would often faint.

"I now weigh ten pounds more than I ever did in my life, am stout and hearty, can go to bed and sleep all night without waking, eat out anything at all, and it does not hurt my stomach, the pains are all gone, breath free and easy, can walk without the least fatigue or shortness of breath, have no night sweats or swelling of feet. If any person doubts this statement, please call at my home, No. 198 Seventeenth street, and I shall gladly verify it. In fact, the half is not told here.

"I must say I owe my recovery to Drs. Copeland, Bell and Davis, and cannot say enough in this short space in praise of their splendid work."
